

YOSAFAT JUAN RENO

IT INFRASTRUCTURE & SENIOR SUPPORT OFFICER

Bekasi, Indonesia | yosafat.juan07@gmail.com | 0896 2680 4474 | [LinkedIn](#)

PROFESSIONAL SUMMARY

IT Infrastructure and Senior Support Officer with 7+ years of hands-on experience coordinating a five-person IT team and supporting 300+ users at the Cikarang site. Responsible for an infrastructure environment covering 163 endpoints, 10 servers, 27 network devices, and large-scale CCTV operations. Skilled in Fortigate, Mikrotik, Cisco, Ruckus, Windows Server, Active Directory, Zabbix, and Bitdefender.

PROFESSIONAL EXPERIENCE

IT Infrastructure and Senior Support Officer

May 2018 - Present

PT Prokemas Adhikari Kreasi | Cikarang, Indonesia

- Coordinate a five-person IT team and daily support operations for 300+ users, including work allocation, preventive maintenance, and escalated incident handling.
- Manage an infrastructure estate comprising 163 desktops and laptops, 10 servers, and 27 network devices to support reliable business operations.
- Install, configure, and troubleshoot Mikrotik routers, Cisco routers and switches, and Ruckus access points for LAN, WAN, and wireless connectivity.
- Administer Fortigate and Mikrotik firewall policies, access controls, bandwidth management, NAT, traffic filtering, VPN, and IPSec connectivity.
- Configure and support VLANs, inter-VLAN routing, switching, TCP/IP, DHCP, and DNS across internal network segments.
- Administer Windows Server Active Directory, Group Policy, user access rights, device management, and Bitdefender endpoint protection.
- Implement and maintain Zabbix monitoring for server availability, network performance, and critical infrastructure alerts.
- Maintain CCTV infrastructure comprising 120 IP cameras and 9 NVRs, including recording storage, remote access, permissions, and network connectivity.
- Diagnose and resolve incidents across servers, endpoints, networks, firewalls, and email systems, while maintaining configuration records, procedures, and IT asset inventories.
